

Yuvaraj A S

Software Development Engineer in Test (SDET)

Yuvarajas396@gmail.com | +91 7337738467 | Bengaluru, Karnataka

PROFESSIONAL SUMMARY

A SDET with 1 year 11 months of experience in Automation Test Engineer with hands-on experience in mobile test automation using Appium and Robot Framework. Skilled in designing and executing smoke and sanity suits for Android Automotive IVI platforms and Selenium WebDriver, Python, Pytest and API testing with exposure to Jenkins CI/CD.

SKILLS

Programming Languages: Python

Automation Tools: Appium Server, Appium Inspector, Robot Framework

Test Automation: Selenium WebDriver, PyTest

API Testing: Postman, Requests

Automation Frameworks: Page Object Model (POM), Data-Driven Testing, Keyword-driven, Hybrid Frameworks

CI/CD & Version Control: Jenkins, Git, GitHub

Test Management & Bug Tracking: JIRA

Platforms: Android Automotive IVI, Android Mobile

EXPERIENCE

Tata Consultancy Services

Dec 2023 – Present

Software Test Engineer - Android Automotive IVI (In-Vehicle Infotainment)

Bengaluru, Karnataka

- Designed and executed **Automation test scripts** for smoke and sanity testing using **Robot Framework** integrated with **Appium Server** and **Appium Inspector**.
- Automated **Android Automotive IVI radio** and **media** features, ensuring test coverage for key user journeys.
- Utilized **Canoe** to simulate and validate automotive network protocols and ECU communication, improving the **accuracy of system integration testing by 20%**.
- Performed functional, regression, smoke and sanity testing of In-Vehicle Infotainment (IVI) applications, including Bluetooth connectivity, media playback, and navigation features, ensuring 98% defect-free releases.

PROJECTS

OrangeHRM Test Automation Framework Development

- Developed and implemented **automated test scripts** for key OrangeHRM modules (Employee Management, Leave Management, Recruitment) using **Selenium WebDriver** and **Python**, improving test coverage by **30-40%**.
- Designed and implemented a **Page Object Model (POM) framework**, creating **scalable and maintainable test scripts** that reduced script maintenance effort by **25%**.
- Automated **functional and regression test cases** to validate critical workflows reducing **manual testing effort by 35%**.
- Integrated automated tests into the **CI pipeline using Jenkins**, enabling consistent and efficient test execution on every code update and improving **release cycle efficiency**.
- Prepared **test reports and logs**, providing visibility into test outcomes and workflow validation. **Tools & Technologies:** Python, Selenium WebDriver, Jenkins, Git/GitHub, Jira

EDUCATION

- Bachelor of Engineering in Electronics and Communication Engineering**
Adichunchanagiri Institute of Technology, Chikmagaluru

2019 - 2023
CGPA: 8.01

Certifications & Awards

- ISTQB Certified** — Foundation level.
- Mobile Automation with Robot Framework and Appium** — Liviu Avram (Udemy).
